

Hello,

My name is Lea Rossignol and I have been working with a group of passionate fiber lovers on the creation of a Northern New England Fibershed Affiliate. Fibershed is a nonprofit organization based out of California started by Rebecca Burgess to develop regional fiber systems that build soil & protect the health of our biosphere. There are now almost 40 affiliate Fibersheds that can be found internationally. If you are not aware of Fibershed and want to check it out go here <https://fibershed.org/>. The Northern New England Fibershed will include New Hampshire, Maine, and Vermont. We felt that the best way to gather information would be to send out a Fiber Production Survey. We realize that everyone is very busy so we made the survey short and sweet. This Survey will allow us to understand what is most needed within our Fibershed Community so we are able to provide what is needed most including but not limited to education, outreach, and marketing opportunities to fiber producers in our region. Please feel free to reach out to me, Lea, at leareneerossi@gmail.com with any questions or concerns. We hope to hear back from folks by November 1st. Additionally, If you think you might be interested in having me come do a site visit for photos and information to be posted on our website (coming soon) please reach out!

Thank you so much for all that you do! We look forward to reading the responses and working with you soon.

Be Well,

Lea Rossignol
